**Declaration regarding the candidates list of Substances of Very High Concern (SVHC)
of the REACH-Regulation (1907/2006)**

Dear Customer,

you have been asking about our compliance with Regulation 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Like all other environmental aspects, this is a very important topic for us. We have been examining our products and materials carefully, including our sourcing and packaging. Additionally Trelleborg actively works with its own supply base to ensure ongoing environmental compliance.

The Substances of Very High Concern (SVHC) from the Candidate List as last amended on 20 June 2016 are to our best knowledge and availability of information not present above 0,1% in the products we supply to you (see attached list *1). To our best knowledge and availability of information our products fully comply with the provisions of Annex XIV "List of substances subject to Authorisation" as well as of Annex XVII "Restrictions of certain Substances, Mixtures and Articles" as of 23 June 2016 (last amended by Commission Regulation (EU) 2016/1017).
