## Hazardous components which must be listed on the label:

Benzenesulfonic acid, di-C10-14-alkyl derivs., calcium salts

(4-nonylphenoxy)acetic acid

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Chemical nature

: Mineral oil. Calcium soap

according to Regulation (EC) No. 1907/2006 - DE (Commission Regulation (EU) 2020/878)

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

If inhaled

Remove person to fresh air. If signs/symptoms continue, get medical attention.
 Keep patient warm and at rest.
 If unconscious, place in recovery position and seek medical advice.
 Keep respiratory tract clear.
 If breathing is irregular or stopped, administer artificial respiration.

| 2.1     | 20.04.2022     | Date of first issue: 04.07.2016 | 10.01.2025  |

| Substance name  | Environmental Compartment                                 | Value       |
|---|---|-------------|
| Distillates (petroleum), hy-<br>drotreated light naphthenic;<br>Baseoil — unspecified | Oral  | 9,33 mg/kg  |
| Benzenesulfonic acid, di-C10-14-<br>alkyl derivs., calcium salts                      | Fresh water   | 0,1 mg/l    |
|   | Marine water  | 0,1 mg/l    |
|   | Fresh water sediment                                      | 45211 mg/kg |
|   | Marine sediment   | 45211 mg/kg |
|   | Microbiological Activity in Sewage Treat-<br>ment Systems | 1000 mg/l   |
|   | Soil  | 36739 mg/kg |

#### 8.2 Exposure controls

#### **Engineering measures**

It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment.

| Personal protective equipmer | nt |  |
|------------------------------|----|--|
| Eye protection               | :  | Safety glasses with side-shields   |
| Break through time           | :  | Nitrile rubber<br>> 10 min<br>Class 1  |
| Remarks                      | :  | For prolonged or repeated contact use protective gloves. The<br>break through time depends amongst other things on the<br>material, the thickness and the type of glove and therefore<br>has to be measured for each case.<br>The selected protective gloves have to satisfy the specifica-<br>tions of Regulation (EU) 2016/425 and the standard EN 374<br>derived from it. |
| Respiratory protection       | :  | Not required; except in case of aerosol formation.   |
| Filter type                  | :  | Filter type P  |
| Protective measures          | :  | The type of protective equipment must be selected according<br>to the concentration and amount of the dangerous substance<br>at the specific workplace.<br>Choose body protection in relation to its type, to the concen-<br>tration and amount of dangerous substances, and to the spe-<br>cific work-place.  |

## **SECTION 9: Physical and chemical properties**

9.1 Information on basic physical and chemical properties

## **SECTION 10: Stability and reactivity**

## 10.1 Reactivity

No hazards to be specially mentioned.

#### 10.2 Chemical stability

Stable under normal conditions.

| 10.3 Possibility of hazardous read | tio | ns  |
|------------------------------------|-----|---|
| Hazardous reactions                | :   | No dangerous reaction known under conditions of normal use. |

## 10.4 Conditions to avoid

Conditions to avoid

: No conditions to be specially mentioned.

#### 10.5 Incompatible materials

Materials to avoid : No materials to be especially mentioned.

## **10.6 Hazardous decomposition products**

No decomposition if stored and applied as directed.

## **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

## Acute toxicity

#### Product:

Acute oral toxicity : Remarks: This information is not available.

according to Regulation (EC) No. 1907/2006 - DE (Commission Regulation (EU) 2020/878)

## STOT - repeated exposure

#### **Components:**

## Distillates (petroleum), hydrotreated light naphthenic; Baseoil - unspecified:

:

Assessment

The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

## **Repeated dose toxicity**

## Product:

Remarks

: This information is not available.

## Aspiration toxicity

## Product:

This information is not available.

## **Components:**

# Distillates (petroleum), hydrotreated light naphthenic; Baseoil — unspecified:

May be fatal if swallowed and enters airways.

## 11.2 Information on other hazards

## **Endocrine disrupting properties**

## **Product:**

| Assessment          | : | The substance/mixture does not contain components consid-<br>ered to have endocrine disrupting properties according to<br>REACH Article 57(f) or Commission Delegated regulation<br>(EU) 2017/2100 or Commission Regulation (EU) 2018/605 at<br>levels of 0.1% or higher. |
|---------------------|---|---|
| Further information |   |   |

## Product:

Information given is based on data on the components and Remarks 2 the toxicology of similar products.

## **Components:**

#### (4-nonylphenoxy)acetic acid: 2

Remarks

Ingestion causes burns of the upper digestive and respiratory tracts.

according to Regulation (EC) No. 1907/2006 - DE (Commission Regulation (EU) 2020/878)

#### Full text of H-Statements

| H302 : | Harmful if swallowed.                                 |
|--------|---|
| H304 : | May be fatal if swallowed and enters airways.         |
| H314 : | Causes severe skin burns and eye damage.              |
| H317 : | May cause an allergic skin reaction.                  |
| H318 : | Causes serious eye damage.                            |
| H400 : | Very toxic to aquatic life.                           |
| H410 : | Very toxic to aquatic life with long lasting effects. |
|        |   |

#### Full text of other abbreviations

Note L

: The harmonised classification as a carcinogen applies unless it can be shown that the substance contains less than 3 % of dimethyl sulphoxide extract as measured by IP 346 ("Determination of polycyclic aromatics in unused lubricating base oils and asphaltene free petroleum fractions - Dimethyl sulphoxide extraction refractive index method"Institute of Petroleum, London), in which case a classification in accordance with Title II of this Regulation shall be performed also for that hazard class.

This safety data sheet applies only to products as originally packed and labelled. The information contained therein may not be reproduced or modified without our express written permission. Any forwarding of this document is only permitted to the extent required by law. Any further, in particular public, dissemination of the safety data sheet (e.g. as a document for download from the Internet) is not permitted without our express written consent. We provide our customers with amended safety data sheets as prescribed by law. The customer is responsible for passing on safety data sheets and any amendments contained therein to its own customers, employees and other users of the product. We provide no guarantee that safety data sheets received by users from third parties are up-to-date. All information and instructions in this safety data sheet have been compiled to the best of our knowledge and are based on the information available to us on the day of publication. The information provided is intended to describe the product in relation to the required safety measures; it is neither an assurance of characteristics nor a guarantee of the product's suitability for particular applications and does not justify any contractual legal relationship. The existence of a safety data sheet for a particular jurisdiction does not necessarily mean that import or use within that jurisdiction is legally permitted. If you have any questions, please contact your responsible sales contact or authorized trading partner.
